CABLE GLANDS, STRAIN RELIEF

- High protection class up to IP 68 cable glands, in sizes from M12 to M20, with a sealing ring for external threads.
- Cable glands M12 to M20 with integrated pressure compensation elements are new in the range.
- Version "Quick fix" cable glands extend only into the enclosure by a few millimetres, so do not hinder any other components inside. They are also easy to install without special tools.
- Simple cable grommet, easy to install, with easy-to-pierce membrane.
- Strain relief to protect electric cables from mechanical stress.
